

Setting E-mail di Thunderbird

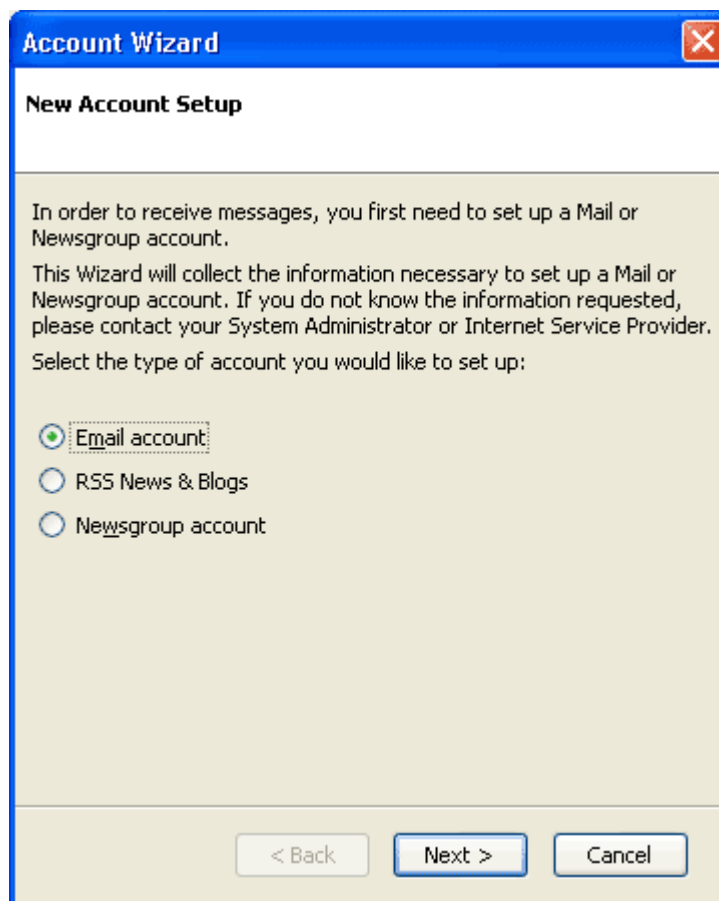

Thunderbird adalah program membaca dan mengirim email yang sangat disarankan. Thunderbird relatif lebih aman terhadap virus. Selain itu Thunderbird berjalan di banyak operating system seperti Windows, Linux dan Macintosh.

Dengan demikian data email anda mudah dibaca di berbagai sistem operasi.

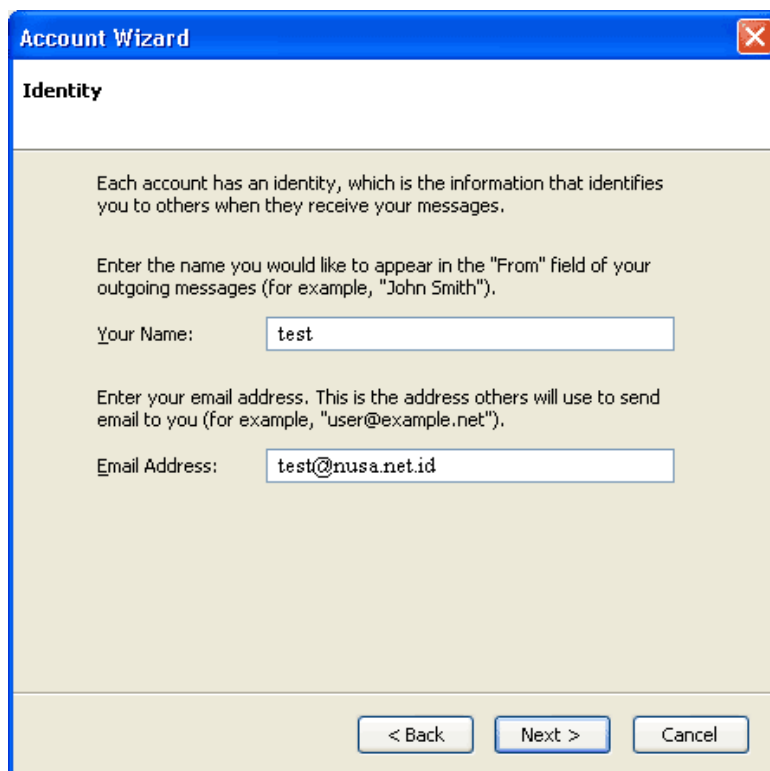

Misalnya website perusahaan anda adalah www.nusa.net.id dan anda mendapat alamat email test@nusa.net.id dengan password 'rahasia'.

Pertama-tama jalankan thunderbird
Wizard.

1. Anda akan menemukan wizard

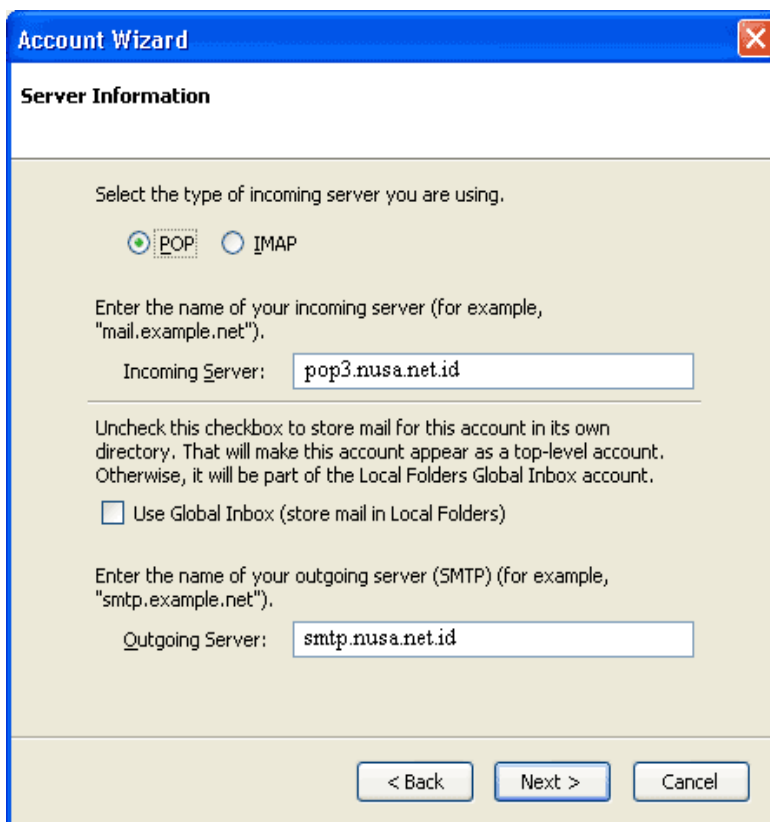

2. Kemudian anda akan menemukan informasi sebagai berikut:

The screenshot shows the 'Account Wizard' dialog box with the 'Identity' tab selected. The window title is 'Account Wizard' and it has a close button in the top right corner. The main heading is 'Identity'. Below the heading, there is a paragraph explaining that each account has an identity. Then, there is a text input field for 'Your Name' with the value 'test'. Below that, there is another text input field for 'Email Address' with the value 'test@nusa.net.id'. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

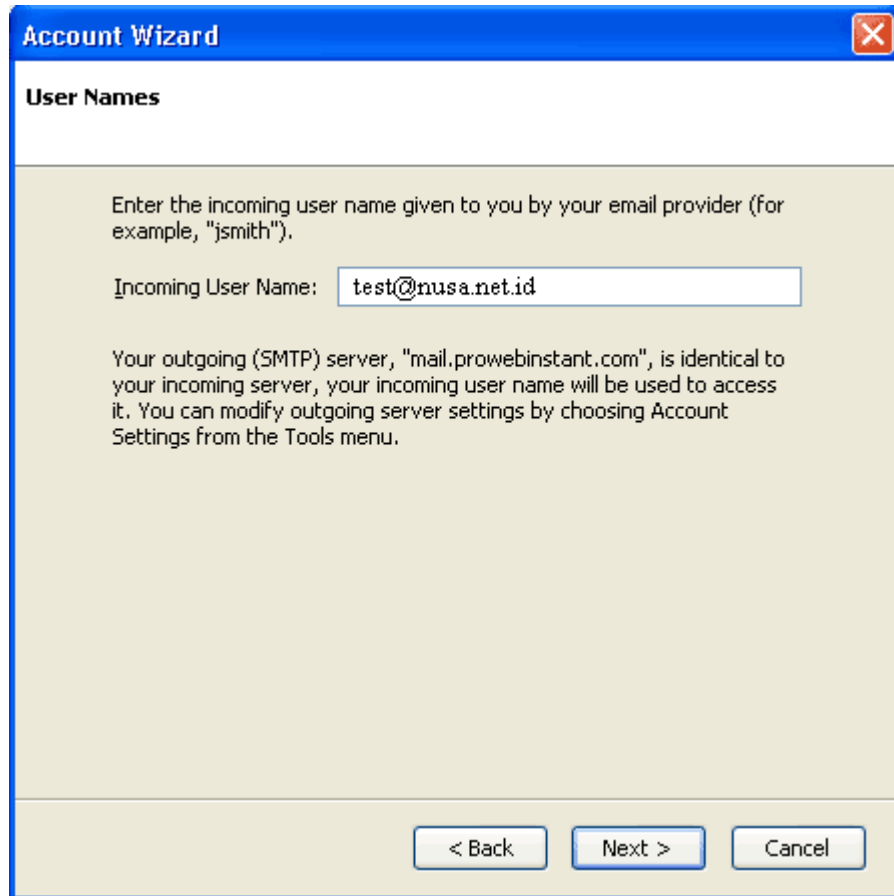

3. Kemudian

The screenshot shows the 'Account Wizard' dialog box with the 'Server Information' tab selected. The window title is 'Account Wizard' and it has a close button in the top right corner. The main heading is 'Server Information'. Below the heading, there is a paragraph asking to select the type of incoming server. There are two radio buttons: 'POP3' (which is selected) and 'IMAP'. Below that, there is a text input field for 'Incoming Server' with the value 'pop3.nusa.net.id'. Then, there is a paragraph explaining the 'Use Global Inbox' checkbox. The checkbox is currently unchecked. Below that, there is a text input field for 'Outgoing Server' with the value 'smtp.nusa.net.id'. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Untuk incoming server, silahkan isi: mail.domaiananda, sebagai contoh mail.prowebinstant.com
Untuk Global Inbox, matikan pilihan ini
Untuk outgoing server sama dengan incoming server, silahkan isi: mail.domaiananda, sebagai contoh mail.prowebinstant.com
Kemudian klik Next

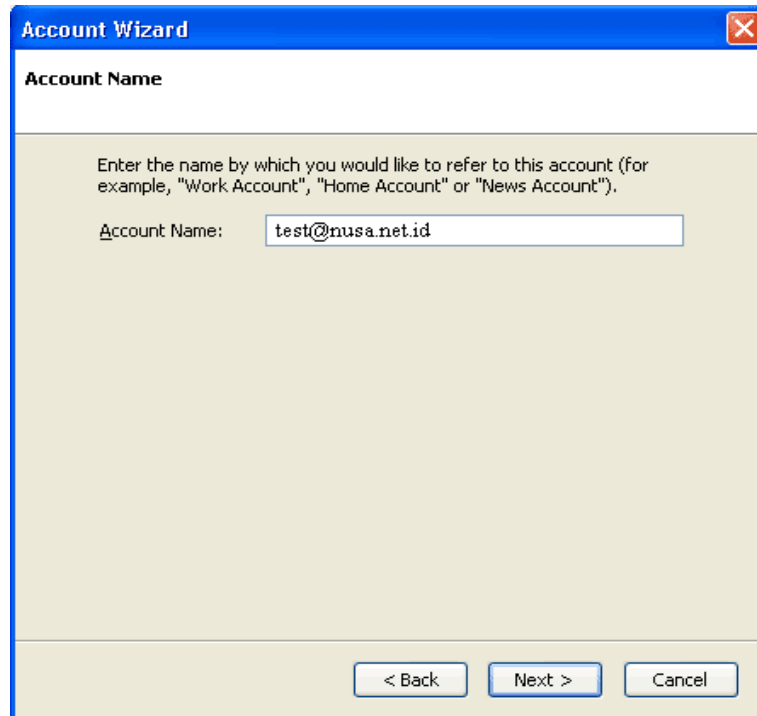

4. Dan

The image shows a screenshot of a Windows-style dialog box titled "Account Wizard". The dialog has a blue title bar with a close button (red X) in the top right corner. Below the title bar, the text "User Names" is displayed in bold. The main area of the dialog contains the following text: "Enter the incoming user name given to you by your email provider (for example, 'jsmith')." Below this text is a text input field with the label "Incoming User Name:" and the value "test@nusa.net.id". Below the input field, there is a paragraph of text: "Your outgoing (SMTP) server, 'mail.prowebinstant.com', is identical to your incoming server, your incoming user name will be used to access it. You can modify outgoing server settings by choosing Account Settings from the Tools menu." At the bottom of the dialog, there are three buttons: "< Back", "Next >", and "Cancel".

kemudian klik Next

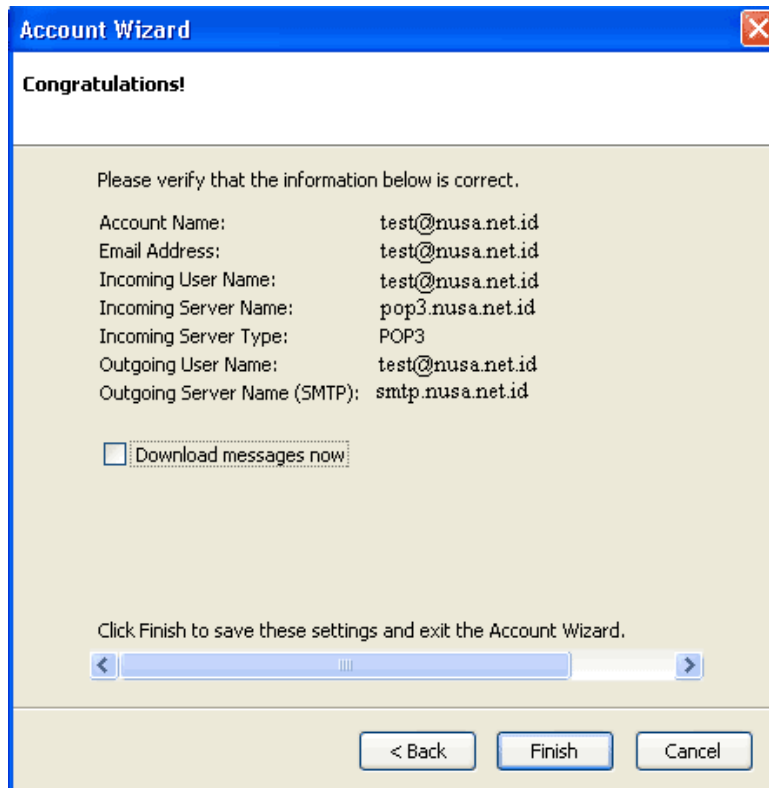

5. Kemudian

The screenshot shows the 'Account Wizard' dialog box with the title bar 'Account Wizard' and a close button. The main heading is 'Account Name'. Below the heading, there is a text box containing the instruction: 'Enter the name by which you would like to refer to this account (for example, "Work Account", "Home Account" or "News Account").' Below this instruction is a text input field labeled 'Account Name:' with the value 'test@nusa.net.id' entered. At the bottom of the dialog, there are three buttons: '< Back', 'Next >', and 'Cancel'.

Silahkan klik Next

6. Kemudian

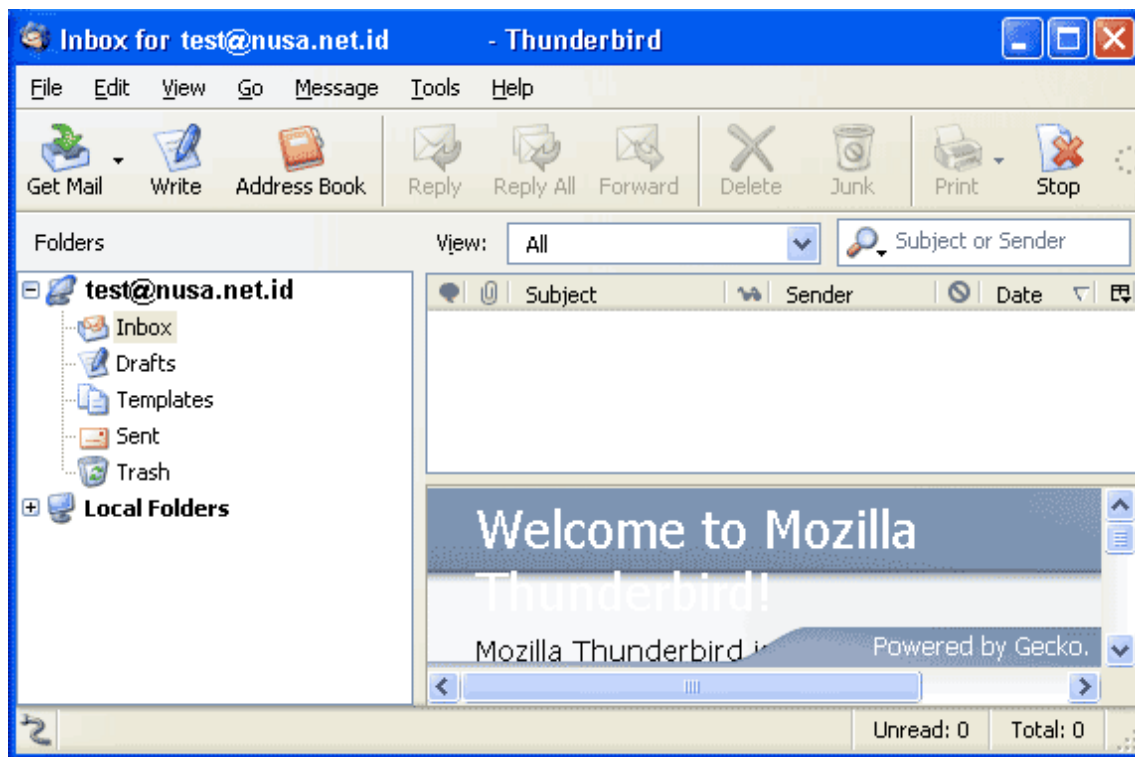

The screenshot shows the 'Account Wizard' dialog box with the title bar 'Account Wizard' and a close button. The main heading is 'Congratulations!'. Below the heading, there is a text box containing the instruction: 'Please verify that the information below is correct.' Below this instruction, there is a list of account settings:

Account Name:	test@nusa.net.id
Email Address:	test@nusa.net.id
Incoming User Name:	test@nusa.net.id
Incoming Server Name:	pop3.nusa.net.id
Incoming Server Type:	POP3
Outgoing User Name:	test@nusa.net.id
Outgoing Server Name (SMTP):	smtp.nusa.net.id

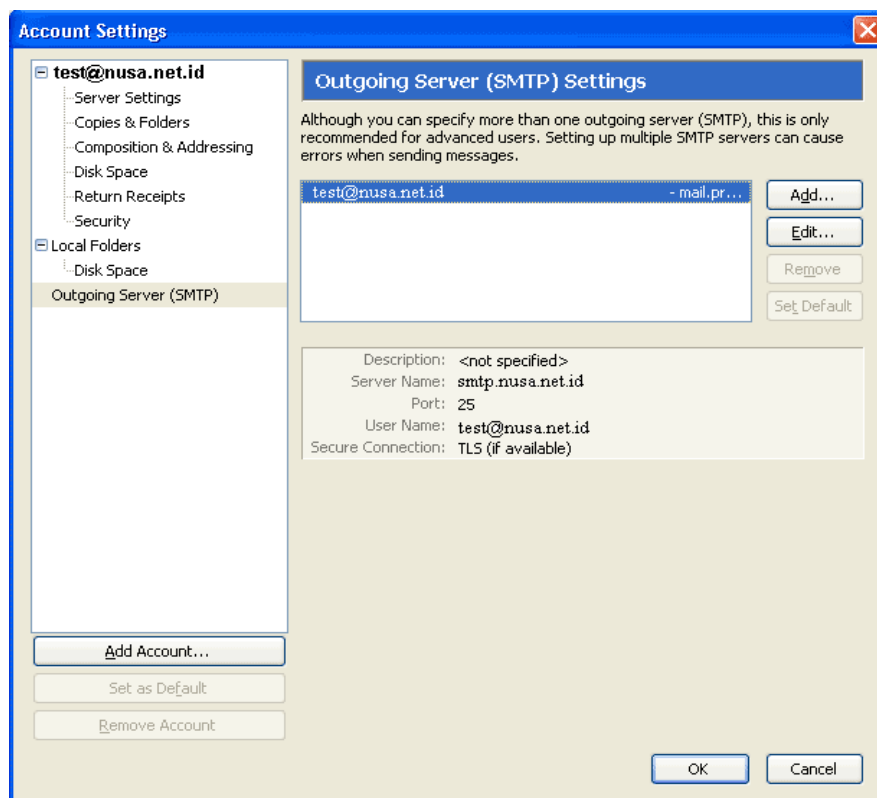

Below the list, there is a checkbox labeled 'Download messages now:' which is currently unchecked. At the bottom of the dialog, there is a text box containing the instruction: 'Click Finish to save these settings and exit the Account Wizard.' Below this instruction, there is a progress bar with a blue fill and a white slider. At the bottom of the dialog, there are three buttons: '< Back', 'Finish', and 'Cancel'.

Matikan pilihan download now, dan klik Finish dan anda akan mendapatkan tampilan seperti di bawah ini.

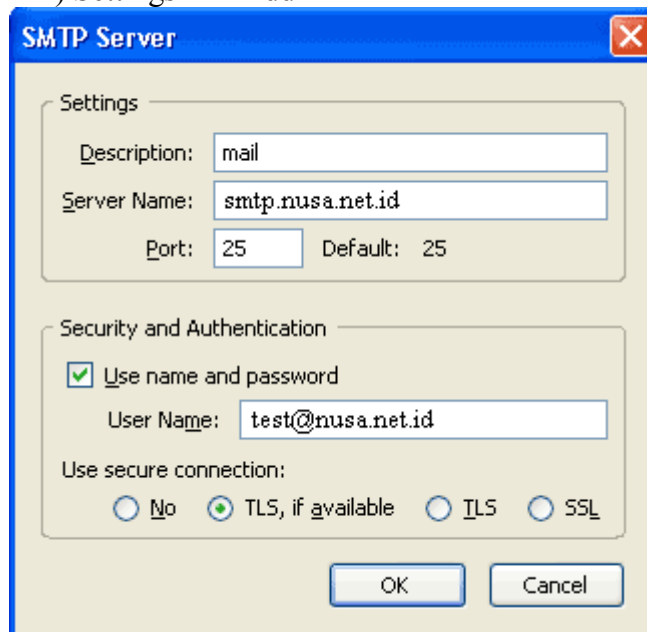

Setting smtp server

Pilih Menu Tool - Account Setting
Kemudian klik Outgoing server

Pada Outgoing Server (SMTP) Settings klik Add
